

Credit Rescue Now, Inc. is a consumer credit protection credit restoration company that dedicates itself to educating consumers on their credit rights and options so they don't fall victim to credit repair companies or crooked counseling services.

Throughout our program our clients will now have the opportunity to gain the knowledge necessary to take care of their credit for the rest of their lives as well as to take this knowledge and share it with their children so they will learn at an early age what credit is and how to preserve and protect it.

## We Offer Free Credit Educational Workshops.

Credit issues and debt are very private and delicate situations. Here at Credit Rescue Now, Inc. we dedicate ourselves to service excellence and quality assurance that each client is handled with discretion and understanding. We know this very well because we have been assisting consumers to regain their credit worthiness since 1991 under the name of Protect Your Rights, LLC. We are a family owned and run company. This assures each and every client they won't get lost in the shuffle or have to deal with somebody that they have never met. We also assure that each client who goes through the credit protection credit restoration program will leave with an understanding of their credit and credit rights.
